

Professional Seminar on Data Management

21st May 2011

Event Report

The professional seminar, jointly organized by Hong Kong Institute of Utility Specialists (HKIUS), Hong Kong Association of Risk Management and Safety (HKARMS), Community & Construction Professionals' Development Centre (CCPDP), Hong Kong College of Technology (HKCT), and Commerce and Economic Development Bureau, HKSAR was held successfully on 21st May 2011 in room 107-108 of Etech Centre, Hong Kong College of Technology (Causeway bay Campus) which 42 participants had attended the seminar.

The Speaker, Dr. King Wong, the fellow member of HKIUS who poses different professional qualifications in the fields of management, facility management, engineering, utility surveys, safety, mediation, marketing, technology and environmental and training.

The seminar highlighted different aspect about data management. It described few points which are the complexity of underground utility systems in Hong Kong, the importance of organized records and database of the utility system to the maintenance of the system. Dr. Wong has also discussed on how to build up an efficient database for the utility system.

The seminar was interesting and informative which successfully delivered the knowledge to the attendees. It gave them insights towards the topic. We specially thank the speaker Ir. Dr. King Wong for sharing his valuable experience and the seminar ended with a round of loud applauds.

Full house of attendees at the seminar
